

IMPORTANT SAFEGUARDS

Follow basic safety precautions, including:

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been supervised/instructed and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be done by children unless they are older than 8 and supervised. Keep the appliance and cable out of reach of children under 8 years.

Do not connect the appliance via a timer or remote control system.

Bread may burn. Don't use the appliance near or below curtains or other combustible materials and watch it while it's hot.

 The surfaces of the appliance will get hot.

Remove and empty the crumb tray. Wipe with a damp cloth, dry, then replace it in the toaster.

If the cable is damaged, it must be replaced by the manufacturer, its service agent, or someone similarly qualified, to avoid hazard.

-  Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- If bread gets jammed, unplug the toaster, let it cool, and carefully remove the bread.
- Don't toast buttered items they may catch fire.
- Don't use torn, curled, or misshapen bread because you may jam the toaster.
- Don't use the appliance for any purpose other than those described in these instructions.
- Don't operate the appliance if it's damaged or malfunctions.

HOUSEHOLD USE ONLY

PARTS

- | | |
|---------------------|---------------|
| 1. Toasting slot | 5. Bun warmer |
| 2. Lever | 6. Handle |
| 3. Browning control | 7. Feet |
| 4. Crumb tray | |

BEFORE USING FOR THE FIRST TIME

Set the browning level to maximum (6). Operate the appliance empty, to cure the new elements. This may smell a bit, but it's nothing to worry about. Ensure the room is well ventilated.

TOASTING BREAD

1. Sit the toaster upright on a firm, level, heat-resistant surface.
2. Put the plug into the power socket.
3. Turn the browning control to the required setting (1 = light, 6 = dark).
4. Put bread into the toasting slot (maximum thickness 25mm).
5. Press the lever down fully. It won't lock down unless the toaster is connected to the electricity supply.

6. When it's done, the toast will pop up.
7. To stop toasting, press the ▲ button.
- You may raise the lever further, to remove small items.

FROZEN BREAD

1. Leave the browning control at your favoured setting, insert the frozen bread, lower the lever, then press the ❄️ button.
2. The ❄️ light will come on, and the toasting time will be altered automatically to give the same degree of browning you get with unfrozen bread.

BUN WARMER

Don't use the bun warmer to warm frozen, buttered, coated, iced, or filled buns.

1. Sit the bun warmer on top of the toaster, with the feet inside the slots.
2. Sit the buns on top of the bun warmer.
3. Set the browning level to 1, then lower the lever.
4. When the lever pops up, remove the warmed buns.
5. Don't touch the bun warmer wires – they'll be hot.
6. Remove the bun warmer before using the toaster normally.

CARE AND MAINTENANCE

1. Unplug the appliance and let it cool.
2. Wipe outer surfaces with a damp cloth.

RECYCLING

To avoid environmental and health problems due to hazardous substances, appliances and rechargeable and non-rechargeable batteries marked with one of these symbols must not be disposed of with unsorted municipal waste. Always dispose of electrical and electronic products and, where applicable, rechargeable and non-rechargeable batteries, at an appropriate official recycling/collection point.
